# AppliDis Fusion 4 voted VirtualiztionAdmin.com Readers' Choice Award second runner-up

**London, UK, October 23, 2013** – Leading Virtualization resource site, VirtualizationAdmin.com, announced that AppliDis Fusion 4 was selected second runner-up in the AppliDis Fusion 4 category of the VirtualizationAdmin.com Readers' Choice Awards.

"Our Readers' Choice Awards give visitors to our site the opportunity to vote for the products they view as the very best in their respective category," said Sean Buttigieg, VirtualizationAdmin.com manager. "VirtualizationAdmin.com users are specialists in their field who encounter various solutions for virtualization at the workplace.  The award serves as a mark of excellence, providing the ultimate recognition from peers within the industry."

VirtualizationAdmin.com conducts bi-monthly polls to discover which product is preferred by administrators in a particular category of third party solutions for virtualization environments. The awards draw a huge response per category and are based entirely on the visitors' votes. VirtualizationAdmin.com users can submit their votes for the current Readers' Award poll in the site's left-hand bar.

### About AppliDis Fusion 4
Systancia offers AppliDis Fusion 4, the industry' first solution to incorporate both application and desktop virtualisation as a single product, with management through a single web console. AppliDis Fusion 4 offers a quick and easy way to publish and virtualise applications and desktops. This solution manages and virtualises all Windows applications and desktops, including Windows 8, within the company's data center. It is designed for organisations looking to reduce IT operational and management costs, enabling administrators to deliver a better quality of service to users.

Key features of AppliDis Fusion 4
- Virtualise all Windows applications and desktops
- Full interoperability with all server virtualisation solutions
- Integrated Universal Printing Module and optimised secure File Transfer
- Intelligent usage detection system & intelligent load balancing
- Management and support for hardware such as scanners and cameras
